AN ITALIAN HISTORY FROM THE 70S

Martellato: l'innovazione al servizio della passione e della creatività nella gastronomia.

Martellato è un'impresa italiana specializzata nella produzione e distribuzione di strumenti professionali per pasticceri, panettieri e gelatai. Nel tempo la gamma si è arricchita fino a comprendere soluzioni dedicate al settore Horeca e al cake design.

Stampi in plastica e silicone, alzate porta torta, stampi e attrezzature per la lavorazione del cioccolato, del pane e della pasta zucchero... **con oltre settemila articoli**, molti dei quali in pronta consegna e personalizzabili, c'è davvero l'imbarazzo della scelta.

Martellato: innovation supporting passion and creativity in cooking.

Martellato is an Italian company specialized in the production and distribution of professional equipment for pastry chefs, bakers and ice-cream makers. The product range has been expanded over the time to include solutions for the Horeca sector, cake designers and homemade pastry lovers.

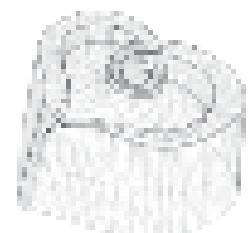

Silicone moulds, cake stands, processing equipment for bread, pasta and chocolate, etc... **with more than seven thousand products**, most of them offering prompt delivery and customized solutions, there is really an embarrassing wealth of options.

Tra i fattori che hanno decretato il successo di Martellato vi sono il design, la qualità, l'innovazione e l'assortimento. L'Ufficio Commerciale opera in sinergia con il Dipartimento Ricerca & Sviluppo per diversificare ed estendere la gamma, proponendo regolarmente soluzioni inedite che anticipano i trend del mercato. Quasi tutti gli articoli vengono prodotti internamente, **a garanzia della loro qualità e sicurezza.**

Among the factors that contribute to Martellato's success are design, quality, innovation and product assortment. The Sales Department actively collaborates with the Research & Development one in order to diversify and broaden the product range, thus offering new solutions that anticipate market trends.

All the products are manufactured in-house and this is a **guarantee of quality and safety.**

L'azienda nasce più di trent'anni fa come una piccola attività familiare, per affermarsi presto in Europa, Nord Africa, Americhe e Medio Oriente, grazie anche ad una diffusa rete di distributori.

Prestigiose industrie del settore alimentare hanno trovato in Martellato un partner d'eccellenza per la fornitura di soluzioni ad hoc perfettamente integrabili nella struttura produttiva.

The company was established more than thirty years ago as a family-run business and it has soon made its name known in Europe, North Africa, Americas and Middle East, also thanks to an extensive distribution network.

Many renowned companies of the food industry consider Martellato a partner of excellence for the supply of customized equipment which can perfectly be integrated into existing industrial production.

DESIGN E QUALITÀ ITALIANI

Scegliere Martellato significa contare per anni e anni su attrezzature affidabili, che vi ripagheranno presto dell'investimento.

Per noi, il "Made in Italy" va oltre l'estetica, significa innovazione, è l'identità che esprime i valori del territorio e quella particolare attenzione verso "il buon vivere" che lo contraddistingue.

ITALIAN DESIGN AND QUALITY

Choosing Martellato means counting on reliable products for years and years: your initial investment will be repaid early.

For us, the "Made in Italy" label goes beyond aesthetics, it means innovation, it is the identity that expresses the values of the country and that particular attention to "living well" that sets it apart.

CUSTOM EQUIPMENT, DESIGNED ACCORDING TO CUSTOMER'S NEEDS

Scegli un messaggio indelebile, dona ai tuoi clienti un oggetto utile e funzionale: **si ricorderanno di te.**

"La bellezza attira gli occhi ma il carattere cattura il cuore".

7000 sono i prodotti a catalogo, ma non ci accontentiamo, perché ogni cliente è unico e merita una soluzione su misura.

I nostri asset produttivi ci consentono di apportare, su richiesta, qualsiasi tipo di customizzazione: forma, dimensione, grafica, colore e molto altro.

Realizziamo articoli personalizzati dai più classici e di largo consumo, come i sac à poche, i raschietti e le spatole - sui quali stampiamo il vostro logo -, a quelli più complessi, come gli stampi in 3D per la produzione di soggetti di cioccolato. Questi ultimi possono essere modellati in ogni dettaglio, così da soddisfare tutti coloro che non si accontentano dell'offerta standardizzata e desiderano dare forma, la propria forma, alla qualità.

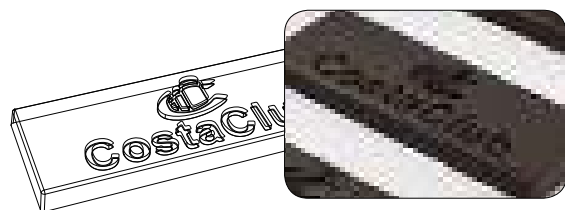

Combinando il nostro know-how con la conoscenza del settore del cliente, siamo in grado di progettare dei prodotti che rispecchiano l'identità di ogni specifica azienda.

Varie anime, una sola mente. Il nostro principale valore aggiunto risiede nella sinergia tra tecnici e creativi: la contaminazione dei saperi moltiplica le opportunità e ci permette di analizzare le richieste del cliente da varie sfaccettature. Dalla definizione del concept alla produzione, il committente può sempre contare su uno scambio/dialogo costruttivo con l'Ufficio tecnico che, dopo lo studio di fattibilità e i test sul campo, concretizza le sue idee in un articolo funzionale e di grande pregio estetico.

Le possibilità di personalizzazione sono vaste come la vostra fantasia: stampa serigrafica o in rilievo, incisione del logo al laser, realizzazione di stampi e altre attrezzature su progetto del cliente. E ancora lucidatura, satinatura, incisioni a laser, colorazione, stampa tampografica e stampa a caldo, nonché confezionamenti personalizzati.

Parafrasando la citazione, possiamo affermare che la qualità del prodotto attira il cliente, la sua identità lo fidelizza.

Contattateci, saremo lieti di creare il prodotto che meglio vi rappresenta.

Choose an unforgettable message, give your customers a functional and useful product: they will remember you.

"Beauty attracts the eye but personality captures the heart".

There are 7,000 products in our catalogue, yet we are not satisfied, because every customer is unique and deserves a bespoke solution.

Our productive assets allow us to offer you any kind of customization upon request: shape, size, layout, colour and much more.

We personalise any product, from the most traditional and widespread, such as pastry bags, scrapers and spatulas -on which we print your logo- to the most advanced, e.g. three-dimensional moulds for the production of chocolate figures. The latter can be shaped in every detail in order to satisfy all of those who are not pleased with standardised offers and want to give shape, their own shape, to quality.

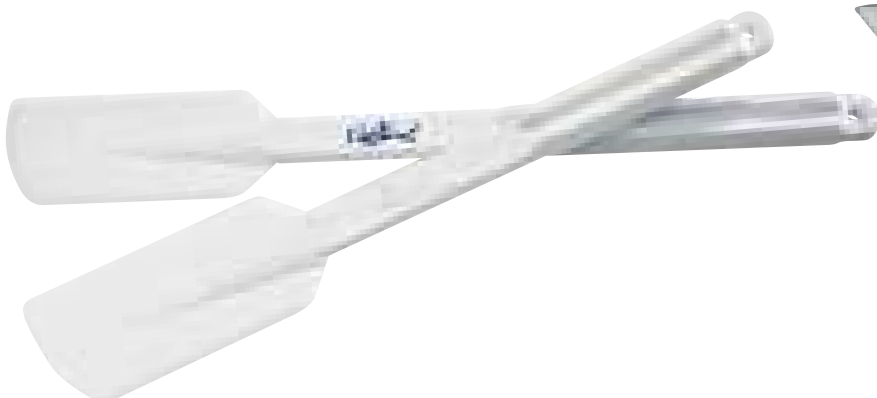

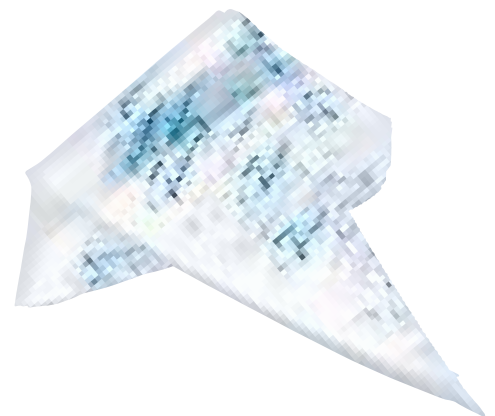

By combining our know-how with the customer's knowledge of his/her field, we are able to design products that specifically reflect the company's identity.

Different souls, a single mind: our main added value lies in the collaboration between technicians and creative talents. The combination of specialist knowledge multiplies the opportunities and allows us to analyse the customer's needs from different perspectives. From concept definition to production, the customer can always count on a constructive exchange of ideas/dialogue with the Technical department that, after the feasibility study and on-field tests, turn his/her ideas into functional and aesthetically pleasing products.

The customization possibilities with us are as vast as your imagination allows: screen and embossed printing, logo laser engraving and the production of moulds and other equipment based on the customer's project. In addition, pad printing, satinising, hot printing, laser engraving, colouring and also customised packaging.

To paraphrase the quotation, we can say that the quality of the product attracts customers, while its identity fidelizes him/her.

Feel free to contact us: we will be pleased to create the product that best represents you.

PROFESSIONAL MELTERS

MELTINCHOC ANALOGICI

I Meltinchoc sono degli strumenti indispensabili per la lavorazione del cioccolato.

Precisione, design, semplicità e ingombro ridotto sono i principali vantaggi di questi dispositivi in grado di soddisfare anche i pasticceri più esigenti.

Gli scioglitori a secco analogici sono dotati di una pratica vasca in acciaio inox removibile con scocca e coperchio in plastica.

Il termostato manuale permette di regolare e mantenere il cioccolato alla temperatura desiderata.

Realizzati in materiale plastico termoresistente, gli scioglitori per cioccolato hanno capienze comprese tra 0,8 e 13 litri.

ANALOGUE MELTINCHOC

The Meltinchoc are essential tools for chocolate processing.

Precision, design, ease of use and compactness are the main advantages of these devices, designed to meet the requirements of even the most demanding confectioners.

Dry heat analogue melters are equipped with a practical and removable stainless steel tank with plastic lid and chassis.

The manual thermostat allows you to adjust and maintain chocolate at the desired temperature.

Made with heat-resistant plastic, the chocolate melters can hold from 0,8 to 13 liters.

MINI MELTERS

Lo scioglitore a secco per cioccolato MINI-MELTIN-CHOC può essere utilizzato sia in laboratorio per piccole produzioni di praline e soggetti di cioccolato che in gelateria per la copertura di gelati e dessert su stecco.

Il design raffinato incentiva l'esposizione dello scioglitore in negozio favorendone l'utilizzo anche di fronte al pubblico.

Realizzato in robusto materiale plastico antiurto. Vaschetta estraibile in alluminio anodizzato.

MINI-MELTINCHOC dry heat chocolate melter can be used for small productions of pralines and chocolate shapes, as well as in the ice-cream shops for the decorations of ice creams.

Because of its modern design, the melter can be used also in the shop in front of the customers.

Made of durable impact resistant plastic.

Removable basin made of anodized aluminium.

Mini MeltinChoc

MADE IN ITALY

Consigli per il temperaggio del cioccolato con il Mini MeltinChoc

Impostare la massima temperatura sul Mini MeltinChoc e sciogliere il 70% del cioccolato mescolando frequentemente.

Quando il cioccolato è perfettamente fuso e ha raggiunto la temperatura di 40-45°C abbassare a 30°C il termostato del Mini MeltinChoc e aggiungere il restante 30% di cioccolato a temperatura ambiente. Mescolare per amalgamare e raffreddare fino al raggiungimento della temperatura di "temperaggio" consigliata dal produttore del cioccolato (la temperatura di temperaggio è indicativamente di 31°C per il cioccolato fondente, di 30°C per il cioccolato al latte e di 29°C per il cioccolato bianco).

Questa tecnica è definita "temperaggio per inseminazione" e serve a stabilizzare i cristalli del burro di cacao. Per un temperaggio preciso consigliamo di misurare la temperatura con il termometro digitale Martellato per cioccolato (cod. 50T001).

Il cioccolato ben temperato si sforma facilmente dagli stampi e ha un aspetto invitante, lucido e croccante, al contrario se il cioccolato non è temperato, è difficile da sformare e oltre a essere opaco e molle potrebbe presentare venature biancastre.

Suggestions for chocolate tempering with the Mini MeltinChoc

Set the maximum temperature on the Mini MeltinChoc and melt the 70% of chocolate, stirring frequently.

When chocolate is completely melted and has reached a temperature of 40-45 °C, lower the thermostat of the Mini MeltinChoc to 30° C and add remaining 30% of chocolate at room temperature.

Stir to mix and cool down to the "tempering" temperature recommended by the chocolate manufacturer (tempering temperature is approximately 31 °C for dark chocolate, 30 °C for milk chocolate and 29 °C for white chocolate).

This technique is called "tempering for insemination" and it is useful to stabilize the crystals of cocoa butter. For a precise tempering, it is recommended to measure the temperature with Martellato digital thermometer for chocolate (cod. 50T001).

Well-tempered chocolate can be easily removed from the moulds; it is crispy and looks shiny and attractive. On the contrary, not-tempered chocolate is difficult to unmould and it may have whitish veins, besides being soft and opaque.

VINTAGE MOULDS

La pralina di cioccolato dal design moderno e minimalista lascia il posto ad un'assoluta novità dal sapore vintage.

NOSTALGIC CHOCOLATE è la nuova linea di stampi per realizzare praline di cioccolato che richiamano soggetti d'epoca: dal coinvolgente Juke Box all'amabile telefono a rotella. Otto soggetti disponibili in 4 kit da due stampi.

The modern and minimalist praline design gives way to the novelty of the vintage chocolates.

NOSTALGIC CHOCOLATE is a brand new collection of moulds aimed at making pralines that remind vintage objects, such as the enthralling jukebox or the lovely rotary dial phone.

Eight different models available in 4 kits of 2 moulds each.

PRALINE 3D MOULDS

Lo stampo, realizzato in policarbonato, è composto da tre parti. La base ed il coperchio, che definiscono la forma della pralina 3D, sono dotate di calamite, per rendere possibile una resistente unione. Il terzo componente consiste invece in una placca forata, necessaria per una pratica e veloce lisciatura dello stampo, dopo lo svuotamento del cioccolato in eccesso.

Our moulds, made of polycarbonate, are composed of three parts. The base and the lid, which define the shape of 3D pralines, are both equipped with magnets, for a strong union. The third component is a little perforated plate, necessary for a practical and fast smoothing after draining the excess chocolate.

CHOCOFUNNY MOULDS

Lo stampo, realizzato in resistente materiale plastico RIUTILIZZABILE, è composto da due placche trasparenti, una che riporta l'incisione del soggetto nella quale stendere il burro di cacao colorato, e l'altra da posizionare sopra, nella quale inserire lo stecco in plastica (in caso di stampo lollipop) e versare il cioccolato. Disponibili espositori da banco per la vendita.

Our moulds, made of reusable durable plastic, are made of two transparent plates: one showing the engraving of a subject in which you lay your coloured cocoa butter, and the other one, to be placed above, in which you put the plastic stick (for lollipop moulds) and pour the chocolate. Display for sale available.

HOW TO USE

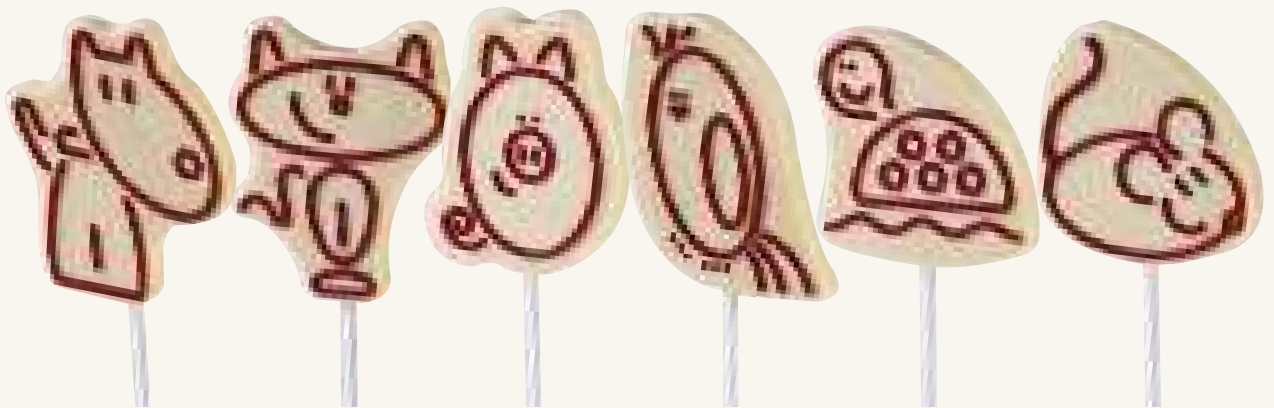

1 - Stendere il burro di cacao o del cioccolato colorato temperato sulla placca incisa ChocoFunny;
 2 - Lasciar cristallizzare il cioccolato e successivamente pulire con un panno le eventuali sbavature.
 3 - Posizionare sopra alla placca con l'incisione la placca forata, fissandola con i due perni. Inserire lo stecco all'interno della guida preposta.
 4 - Con l'aiuto di una sac a poche riempire la sagoma con il cioccolato;
 Lasciar cristallizzare il cioccolato prima di staccare i soggetti dalla placca.
 5 - Per la sformatura fare una leggera pressione con i pollici e se necessario staccare i soggetti delicatamente anche dalla placca sagomata.

1 - Spread tempered cocoa butter or coloured chocolate on the engraved ChocoFunny plate using a rubber spatula;
 2 - Let the chocolate crystallize and then wipe off with a cloth any excess of chocolate
 3 - Place the pierced plate over that with the engraving fixing it with two pins and insert the stick inside the rail.
 4 - Fill the subject with the chocolate by using a pastry bag;
 Let the chocolate crystallize before removing the subject from the plate.
 5 - Make a slight pressure with your thumbs to take the subjects out of the mould and, if necessary, gently remove them even from the shaped plate.

Con gli stampi 3D è possibile creare soggetti dalle forme più fantasiose. Idee originali per allietare il banco pasticceria e le vetrine in vista delle varie festività.

3D moulds allow you to make chocolate figures with the most fanciful shapes. An original way to brighten up the pastry shop counter or windows for the various holidays.

Stampo - Mould: 275x175 mm

HOW TO USE

- 1 - Riempire mezzo guscio utilizzando una sac a pochés.
- 2 - Chiudere avendo cura di posizionare correttamente l'altra metà dello stampo.
- 3 - Far ruotare ripetutamente lo stampo affinché il cioccolato aderisca alle pareti in modo uniforme.
- 4 - Sformare il soggetto avendo cura di aprire i due gusci con delicatezza.

- 1 - Close the mould paying attention to combine correctly the two halves.
- 2 - Fill one half of the mould using a pastry bag.
- 3 - Rotate the mould (in all directions) for some time, so that the chocolate spreads all over the internal surface.
- 4 - Remove gently the two halves of the mould.

SILICONE 3D MOULDS

Silicone
Idea
sweet creation

Gli stampi, realizzati in resistente silicone alimentare, consentono la produzione di fantastici soggetti tridimensionali, ognuno dei quali ha la straordinaria caratteristica di suscitare dolci emozioni.

La professionalità e l'esperienza acquisita negli anni hanno notevolmente contribuito alla creazione di questa nuova collezione, ogni singolo soggetto è stato scelto ed attentamente studiato con il preciso intento di proporre ai nostri clienti soggetti esclusivi ed originali senza in alcun modo trascurare le reali necessità del pasticciere.

Martellato realizza e produce soggetti personalizzati su richiesta.

The moulds, made of durable food-safe silicone, allow the production of fantastic three-dimensional subjects, each of which has the unique feature of arousing sweet emotions.

Professionalism and the experience gained over the years have greatly contributed to the creation of this new collection, each subject was chosen and carefully designed with the specific intent to offer our customers exclusive and original subjects without neglecting the real needs of the pastry chef.

Martellato creates and manufactures custom subjects on request.

SEMIFREDDO MATS

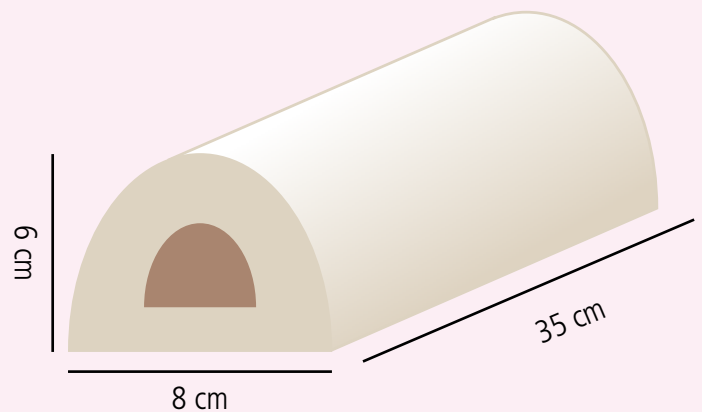

I nuovi tappeti in silicone per semifreddo sapranno arricchire i vostri tronchetti.

Le ormai note caratteristiche di questo materiale rendono possibile un'ottimale sformatura del semifreddo donando al dessert decori di grande effetto.

The new silicone mats for semifreddos will enrich your log-shaped dessert.

The well-known features of this material ensure easy removal of the semifreddo from the mould, creating impressive decorations.

Semifreddo Mats

HOW TO USE

1 - Spatolare il composto prima di adagiare il tappeto nella teglia.

2 - Inserire il tappeto in silicone nell'apposita sede.

3 - Riempire lo stampo con il semifreddo e se previsto, e adagiare l'insero precedentemente abbattuto.

4 - Chiudere con il biscuit e mettere in abbattitore.

5 - Estrarre dall'alveolo il tronco aiutandosi con una piccola spatola o un cutter.

6 - Togliere con cura il tappeto in silicone dal semifreddo e decorare a piacere.

1 - Mixture with a spatula before placing the mat in the mould.

2 - Insert the silicone mat in its place.

3 - Fill the mould with the semifreddo and if provided, place the insert previously frozen.

4 - Close with the biscuit and put in a blast chiller.

5 - Pull out the log with the help of a small spatula or a cutter.

6 - Carefully remove the silicone mat from the semifreddo and decorate as desired.

SEMIFREDDO MATS

Preferisci proporre i semifreddi più classici ma non vuoi rinunciare alle nuove texture? Abbinare i tappeti silicone alle fasce inox per realizzare dei semifreddi rettangolari dal decoro raffinato.

Would you like the traditional Semifreddos but you don't want to give up the new textures? Match the silicone mats with the stainless steel bands to make rectangular-shaped semifreddos with a refined decoration.

CYLINDER-SHAPED SEMIFREDDO MOULDS

Martellato inventa un nuovo sistema per produrre semifreddi a forma di cilindro. Un'inedita concezione che aiuta il pasticcere a presentare dessert di grande effetto e al tempo stesso supporta l'operatore durante il processo produttivo. Un dessert apparentemente complesso ma, grazie allo stampo SEMIFREDDO 360°, facilmente realizzabile.

Martellato invents a new system to prepare cylinder-shaped semifreddos. An original concept that helps the pastry chef to make impressive dessert and at the same time supports the expert during the preparation process. An apparently difficult dessert which is easily achievable thanks to the SEMIFREDDO 360° mould.

SEMIFREDDO MOULDS

Lo stampo Martellato è realizzato in materiale plastico resistente ma allo stesso tempo sufficientemente flessibile per permettere una facile estrazione. Per garantire un buon risultato Martellato consiglia di scuotere lo stampo, una volta riempito, per compatte il contenuto ed eliminare la possibile formazione di bolle d'aria. Congelare il semifreddo, in abbattitore o freezer, fino a -20°C al cuore.

Conf. 2 pezzi, stesso modello, formato piccolo e grande.

Martellato moulds are made of durable plastic, but at the same time sufficiently flexible to allow easy extraction. To ensure a good result Martellato recommends to shake the mould, once filled, in order to tamp down its content and eliminate the possible formation of air bubbles. Freeze the semifreddo in the blast chiller or freezer, reaching -20°C in the heart of the cake.

Pack 2 pcs, big and small size of the same shape.

HOW TO USE

CONSIGLI PER L'ESTRAZIONE:

Lasciare per qualche minuto il semifreddo a temperatura ambiente.

6 - Per facilitare la sformatura immergere lo stampo in acqua non calda o passare un panno facendo attenzione a non riscaldare troppo il semifreddo.

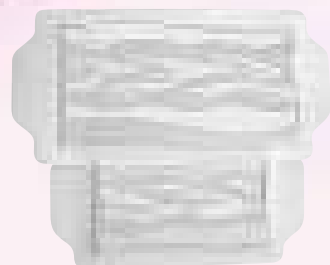

8 - Dopo l'estrazione decorare con la linea coloranti spray Velvet.

SUGGESTIONS FOR DEMOULDING:

Leave the semifreddo at room temperature for a few minutes.

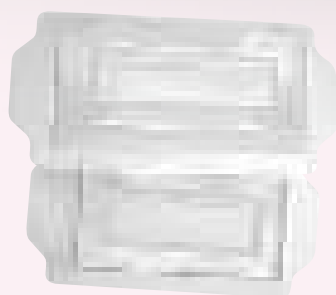

6 - To make demoulding easier, put the mould in a basin with water or use a soft cloth, paying attention not to warm the semifreddo too much.

8 - Decorate it with the Velvet spray colourings.

ST STEELS CAKE RINGS

Le fasce inox si prestano sia al congelamento che all'utilizzo in forno, dove assicurano una cottura uniforme.

La varietà di forme e dimensioni, unita alle ampie possibilità di personalizzazione del soggetto su richiesta, rendono le fasce Martellato delle soluzioni versatili in grado di soddisfare anche i pasticceri più esigenti.

Oltre all'idoneità al contatto alimentare, questi strumenti godono delle altre proprietà dell'acciaio inox di cui sono composti:

- facilità di pulizia,
- scarsa deformabilità,
- elevata inerzia chimica (resistenza all'ossidazione, alla corrosione, mancata cessione di sostanze chimiche e mantenimento delle caratteristiche organolettiche del cibo).

The stainless steel cake rings are freezer and oven safe and ensure even cooking.

The variety of shapes and sizes, combined with the wide customization opportunities upon request, make Martellato rings very versatile products able to satisfy even the most demanding pastry chefs.

In addition to being suitable for food contact, these tools share the other properties of the stainless steel they are made of:

- ease of cleaning,
- low deformability,
- high chemical inertia (high resistance to oxidation and corrosion, they do not release any chemicals and maintain the organoleptic properties of food).

SILICONE MOULDS

Per dolci, crostate, torte salate, pizze, torte, budini, brioches, sformati, sorbetti, gelati, mousse di frutta o verdure... Si puliscono semplicemente sotto un getto di acqua calda, con l'aiuto di una spugna o in lavastoviglie. Per una manutenzione ottimale cospargere lo stampo con farina, cacao o zucchero a velo prima dell'uso.

For cakes, jam tarts, savoury flans, pizzas, puddings, buns, sorbets, fruit or vegetable mousses... They can be easily cleaned with a sponge and hot water or in the dishwasher. We advise you to dust the mould with flour, cocoa powder or icing sugar before using it.

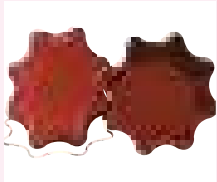

**Non usare l'anello in microonde.
The ring cannot be used in the microwave.**

Imballo nylon trasparente.

SEMIFREDDO MOULDS

Dedichiamo al mondo della gelateria un'invenzione pensata appositamente per i negozi aperti tutto l'anno, ma perfetta anche per chi vuole proporre nel proprio banco frigo qualcosa di veramente nuovo. WINTER ICE è una linea composta da cinque stampi in plastica ideali per la produzione artigianale di semifreddi e gelati da presentare su stecco anche nella stagione più fredda.

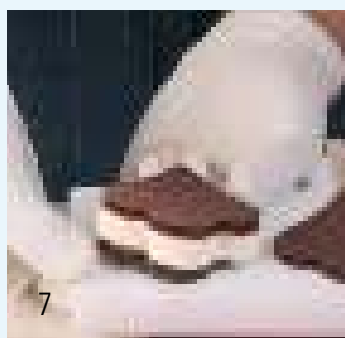

Le cinque forme: tondo, ventaglio, oblungo, fiore 6 petali e fiore 3 petali sono proposte singolarmente e abbinate al relativo tagliapasta in plastica necessario per tagliare la base di biscuit o pan di spagna.

And now, for the ice-cream world, an invention specifically designed for the shops which are open all year long but also perfect for those who wants to propose in their freezer display cabinets something new. WINTER ICE is a line of five plastic moulds ideal for the production of handmade desserts and ice creams on a stick, perfect even in winter.

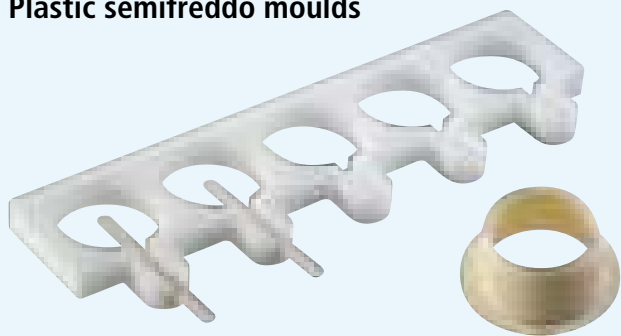

Five shapes available: round, fan, oblong, three and six petals flowers: they are offered individually and combined with the plastic cutter needed to cut the biscuit or sponge cake base.

ICE LOLLY MOULDS

GhiaccioloFlex

La rivoluzione dedicata alla produzione artigianale di ghiaccioli su stecco.

Lo stampo GHIACCIOLO-Flex di Martellato vanta delle caratteristiche che lo rendono unico e insostituibile.

Lo straordinario materiale plastico scelto e utilizzato per la sua produzione lo rende particolarmente flessibile ma assolutamente indeformabile e resistente alle basse temperature.

Inoltre, la plastica utilizzata garantisce una facile estrazione del prodotto finito ed elimina qualsiasi rischio di rottura sia dello stampo che del ghiacciolo.

The revolution dedicated to the artisan production of ice lollies on stick.

The features of our GHIACCIOLO-Flex make it unique.

The extraordinary plastic material selected and used for its production makes it absolutely non-deformable but particularly flexible and resistant to low temperature.

Furthermore, the plastic used ensures easy removal of the finished product and eliminates any risk of breaking of the mould and of the ice lolly too.

PUSH UP POPS MOULDS

L'equilibrato miscuglio di caratteristiche che rendono questo prodotto unico nel suo genere sono: funzionalità, praticità e velocità d'uso, eleganza, versatilità. Basti pensare che lo stesso stampo diventa, nella fase successiva alla produzione del gelato, un elegante sistema per esporre il prodotto in vetrina. La trasparenza dello stampo inoltre esalta la decorazione multicolore, stimolando l'artista gelatiere a decorazioni sempre più raffinate e ricercate. Facilmente adattabile anche alla stagione più fredda, lo stampo Push up Pops può essere proposto anche in versione semifreddo.

The mix of features that makes this product unique are: functionality, convenience, speed of use, elegance, versatility. Just think about how the same mould becomes, in the next step after the creation of ice cream, an elegant system to expose the product in a display.

The transparency of the mould enhances the multi-colored decorations and stimulates ice cream artists to create ever more refined and sophisticated decorations.

Easy adaptable even to winter, Push up Pops comes in the semifreddo version too.

NEW SYSTEM GUITARS

Il **nuovo sistema ad incastro** facilita notevolmente l'inserimento ed il cambio dei telai, riducendo sensibilmente i tempi di montaggio, smontaggio e manutenzione.

La chitarra è composta da una nuova e più solida base in plastica e da una serie di telai di diverse misure fornibili separatamente in base alle esigenze del singolo operatore, è predisposta per il taglio di grandi quantità di cioccolatini calibrati e tagliati in modo preciso e privo di imperfezioni.

The **new simple system of interlocking frames** incredibly reduces assembly and disassembly time, it is sufficient to place them in the seats and you're done. The guitar is capable of cutting large amounts of cremini perfectly matched with a clean and precise cut.

HOW TO USE

Posizionare il cremino sulla base in plastica utilizzando l'apposito piatto in acciaio e la spatola.

Nb: il piatto in acciaio serve solo per posizionare il cremino, deve essere tolto prima di abbassare i telai. Abbassare il telaio realizzando il primo taglio. A telaio abbassato rimuovere le strisce di cremino utilizzando sempre il piatto in acciaio.

Place the cremino on the plastic base. Using the special steel tray and spatula the operation will be easier and more precise.

The steel tray serves only to place the cremino, it must be removed before lowering the frame. Lower the frame and make the first cut. After that remove the cremino using the steel tray.

PASTRY BAGS SAC A POUCHES

Realizzato con un innovativo materiale alimentare che conferisce al prodotto un'elevata resistenza, flessibilità e morbidezza. Il nuovo Superflex presenta una superficie liscia all'interno che facilita la fuoriuscita del prodotto, e ruvida all'esterno per un'impugnatura più salda. Grazie allo speciale e innovativo sistema di saldatura del sacchetto la sicurezza igienica è maggiormente garantita.

An innovative food-safe material than gives high resistance, flexibility and softness to pastry bags.

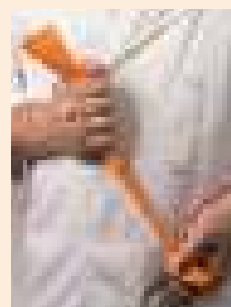

Superflex bags have a smooth internal surface for an easy emission of creams and an external rough surface for a better grip. Thanks to a special welding of the bag we can guarantee a high hygienic safety.

FOOD COLOURING

Martellato propone una linea completa di coloranti alimentari per dolci, in versione spray, in polvere o in gelatina, ideali per impreziosire e dare un tocco di fantasia a dolci, gelati e altri prodotti dolciari.

Martellato offers a full range of edible cake food colouring available in spray, powders or gel pastes ideal to decorate and add a splash of whimsy to cakes, ice-cream and other desserts.

VELVET SPRAY

I coloranti alimentari spray Velvet, a base di burro di cacao, offrono al semifreddo un decoro dall'effetto vellutato. L'articolo può essere spruzzato su tutte le superfici congelate: semifreddi, mousse, torte gelato, cioccolato, creme etc

The Velvet food colouring spray, made with cocoa butter, offer a velvety decor for semifreddi.

The product can be sprayed on all frozen surfaces: semifreddos, mousses, ice cream cakes, chocolate, creams, etc.

SPRAY VELVET - CONSIGLI D'USO:

Il prodotto su cui si spruzza il Velvet deve essere congelato.

Mantenere il prodotto ad una temperatura di 20/25°C per almeno 2 ore e agitare bene prima dell'uso. Spruzzare uno strato sottile ed omogeneo di prodotto sulla superficie congelata che si vuole trattare da una distanza di circa 15/20 cm ad intervalli regolari.

Ruotare costantemente il dolce mentre si spruzza la decorazione Velvet in modo da distribuire uniformemente il prodotto.

Si consiglia di pulire l'erogatore con acqua calda subito dopo l'uso.

VELVET SPRAY - DIRECTIONS FOR USE:

It is essential that the surface is frozen. Keep the product at 20/25°C for at least 2 hours. Shake well before use. Spray a thin, uniform layer on the product from a distance of about 15-20 cm at regular intervals.

Constantly rotate the cake while decorating with Velvet to evenly distribute the product.

It is advisable to clean the nozzle with hot water right after use.

POLVERE LIPOSOLUBILE - CONSIGLI D'USO:

Il colorante è solubile in alcool, operazione consigliata o in acqua operazione più faticosa. Grazie alla capacità di riflettere la luce dona alla decorazione un effetto metallizzato.

Può essere usato direttamente sulla superficie di cioccolato, senza essere sciolto, con un pennello o con le dita ottenendo così un effetto perlato.

Per la colorazione in superficie si può utilizzare la polvere misciata alla gommalacca liquida, in modo che il prodotto aderisca bene alla superficie una volta decorata.

LIPOSOLUBLE POWDER - DIRECTIONS FOR USE:

The colouring is soluble in alcohol (suggested operation) or in water (more difficult operation). Thanks to the ability to reflect the light, this powder gives the decoration a metallic effect.

It can be used directly on the surface of chocolate, without being dissolved, with a brush or with fingers obtaining in this way a pearled effect to colour the surface you can use the powder mixed with the liquid shellac, so that the product adheres well to the surface once decorated.

HOW TO USE

1 - Preparare un foglio di marzapane dello spessore di 2mm circa. Con il tagliapasta più grande tagliarne dei pezzi e appoggiarli in corrispondenza del foro. Premere il marzapane contro lo stampo facendolo ben aderire.

Spolverare di zucchero a velo lo stampo prima di appoggiarvi il marzapane.

2 - A questo punto si può riempire lo spazio vuoto con crema, panna, mousse, ecc.

3 - Coprire con il biscuit o il marzapane precedentemente tagliato con il tagliapasta piccolo in dotazione.

4 - Appoggiare sopra lo stampo la tavoletta piana in dotazione e capovolgere il tutto togliendo lo stampo.

5 - Dopo il montaggio decorare a piacere con ghiaccia o cioccolato.

6 - Utilizzare nuovamente il tagliapasta piccolo per eliminare i bordi superflui di marzapane.

1 - Prepare one marzipan sheet about 2mm thick. Cut the marzipan with the biggest plastic cutter. Put the pieces on the "Speedy form" mould stuffing the marzipan on the shape.

We suggest you to sprinkle the "Speedy form" with icing sugar before starting.

2 - Fill the empty shapes with creme, mousse, bavaois, etc...

3 - Cover with biscuit cut with the smallest plastic cutter.

4 - Lean the tray on the "Speedy form" mould, reverse it and remove the "Speedy form" mould.

5 - Decorate as you prefer.

6 - Eliminate the exceeding marzipan with the small plastic cutters.

PROFESSIONAL CONTAINERS

Contenitori Isotermici Isothermal Containers

I contenitori isotermici grazie alla struttura del polipropilene espanso a cellula chiusa sono: idonei al contatto alimentare, resistenti, igienici, economici, e riciclabili al 100%, (HACCP System).

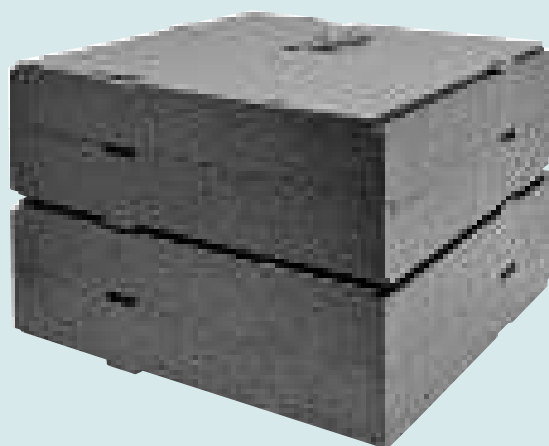

Non rilascia odori e non altera i sapori degli alimenti. Facilmente lavabile e sanificabile dopo il suo utilizzo.

Thanks to their closed cell expanded polypropylene structure, the isothermal containers are: resistant, hygienic, cheap, suitable for contact with food and 100% recyclable (HACCP System).

It does not hand over odours or flavours to foods and it is easy to wash and disinfect after use.

REUSABLE MOULDS ICE SCULPTURE

MULTI ICE
revolution

Multi Ice Revolution. Stampi in speciale materiale plastico con l'aggiunta di uno strato esterno di resina arancione che conferisce ai due gusci più elasticità e resistenza durante l'espansione del ghiaccio. La guarnizione siliconica posizionata all'interno del guscio ed il sistema di fissaggio composto da un kit di volantini non permettono la fuoriuscita dell'acqua e consentono di riutilizzare più volte lo stampo.

Grazie alla linea Multi Ice Revolution, composta da 18 stampi di diverso tipo, prendono forma eleganti sculture di ghiaccio adatte a stupire gli ospiti e a rendere unica l'esposizione del vostro banchetto.

Multi Ice Revolution. Moulds made of special plastic with an additional external orange resin layer which makes the two shells more elastic and more resistant against ice expansion. The silicone packing inside the shell and the fixing screws do not let the water come out and assure that the mould can be reused many times.

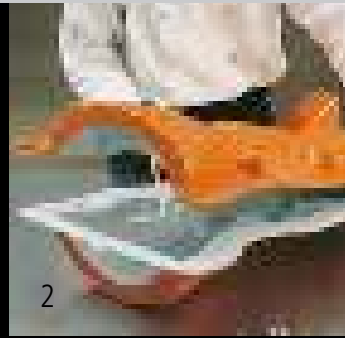

The Multi Ice Revolution collection, with its 18 different moulds, gives the possibility to create elegant ice sculptures that can impress your guests and make your banquet unique.

HOW TO USE

1
Inserire il supporto per la pompetta.
Insert the support for the air pump.

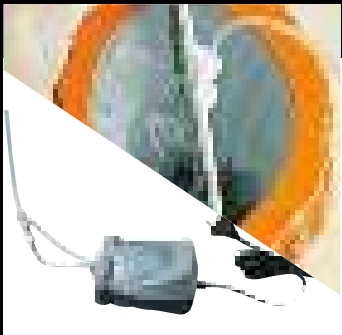

2
Unire i due gusci.
Combine the two shells.

3
Chiudere ermeticamente.
Seal the mould hermetically.

4
Riempire lo stampo con acqua distillata.
Fill the mould with distilled water.

Inserire il tubo e collegarlo alla pompa.
Insert the pipe and connect the pipe to the pump.

Mettere lo stampo in abbattitore. Per ottenere una scultura più trasparente è consigliabile prolungare il processo di congelazione. La temperatura consigliata è tra i -10°C e i -20°C.

Put the mould inside a freezer. In order to obtain a more transparent sculpture it is advisable to prolong the process of freezing as much as possible. The recommended temperature should go from -10° C to -20° C.

Lasciare lo stampo a temperatura ambiente per 10 minuti, procedere con la rimozione dei gusci.
Leave the mould at room temperature for 10 minutes and then remove the fasteners.

Aprire lo stampo quando si trova in posizione orizzontale.
Lay down the mould horizontally on a table and then remove the two shells.

Estrarre la scultura dallo stampo.
Extract the sculpture from the mould.

Rimuovere il ghiaccio in eccesso con l'aiuto di un cutter.
Remove the exceeding ice with the help of a cutter.

Pulire la scultura con un cannello o con un panno.
Polish the sculpture with a mini torch or a cloth.

ACCESSORIES FOR ICE SCULPTURE

La pompetta tiene in movimento l'acqua all'interno dello stampo durante il processo di congelazione. Con l'aiuto di questi accessori la scultura di ghiaccio risulterà più trasparente.

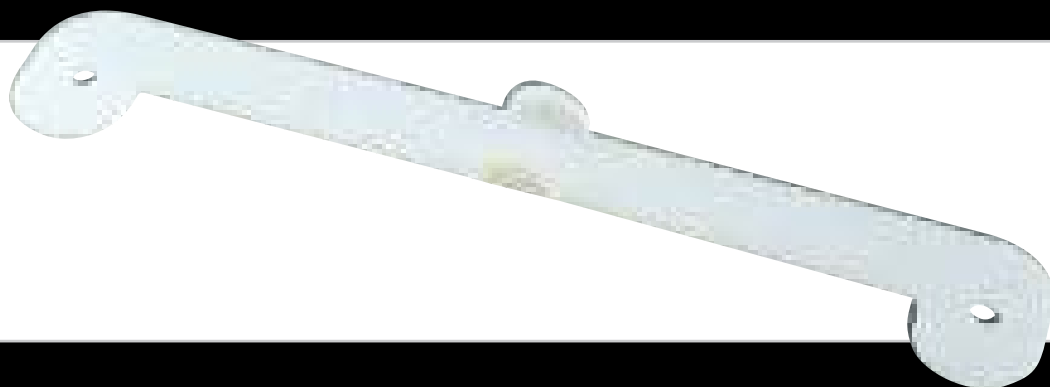

The Air pump makes the water circulate inside the mould during the process of freezing. With the help of this accessory, the resulting ice sculpture will be more transparent.

HOW TO USE

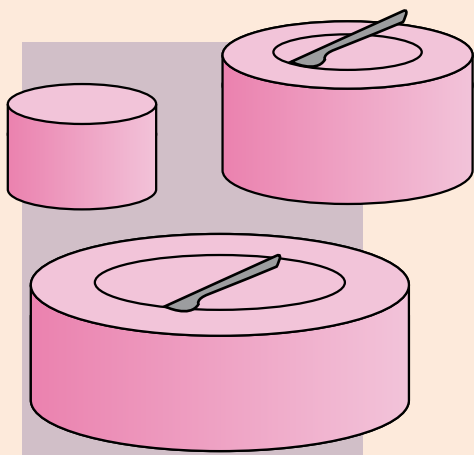

Preparare la base del pan di spagna da sagomare con l'aiuto dei piatti in plastica in dotazione in ogni little wedding cake;

Prepare the sponge cake base to be shaped by using the plastic plates supplied with every Little Wedding Cake;

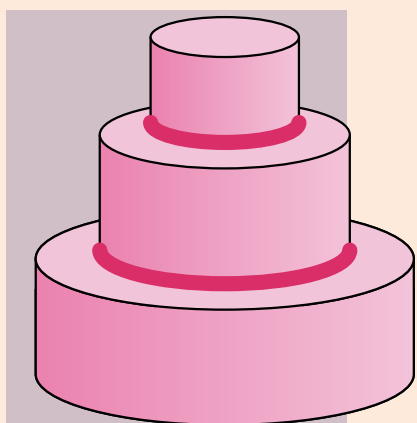

Posizionare su ogni tamburo il pan di spagna e farcire il dolce a piacere avendo cura di non oltrepassare il bordo dei tamburi;

Place the sponge cake on each dummy and finish your cake, taking care not to go beyond the edges of the dummies;

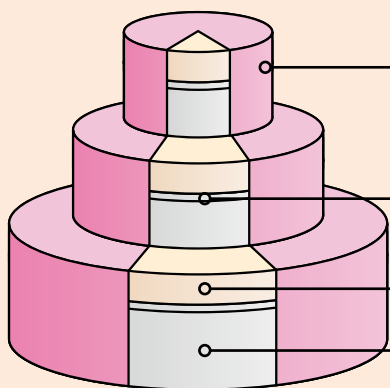

Ricoprire ogni singolo tamburo con la pasta zucchero "Bianco Fondant", forare il centro del primo e del secondo tamburo per rendere possibile l'incastro;

Cover every single dummy with the sugarpaste "Bianco Fondant"; pierce the center of the first and the second dummy to make the assembly possible;

Sovrapporre i tamburi e decorare i bordi per nascondere possibili imperfezioni.;

Overlap the dummies and decorate the edges to hide any possible imperfections.

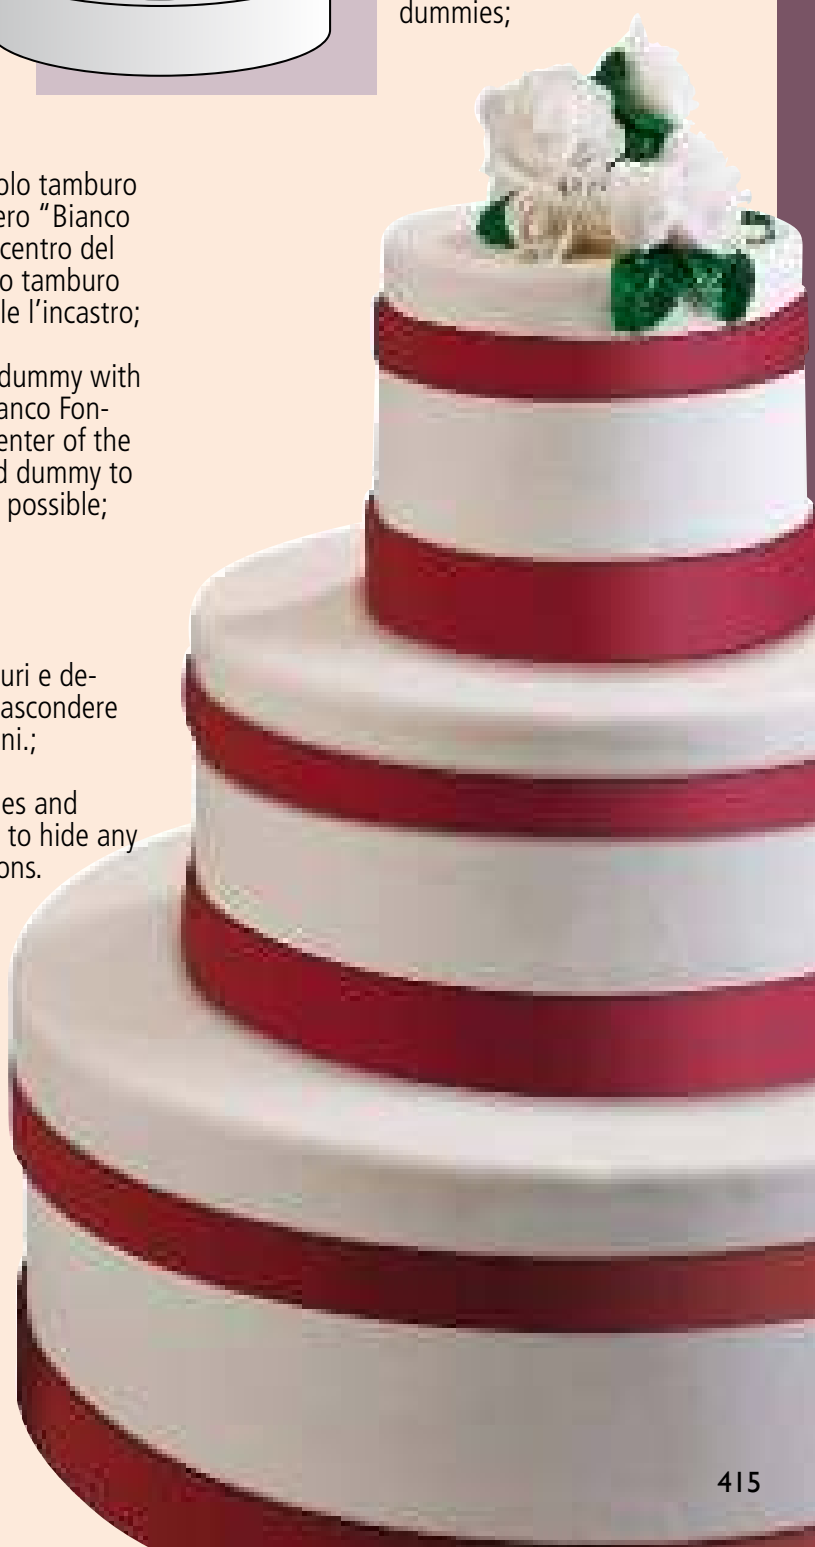

Copertura di pasta zucchero.
